Guided Tapping Script

Hello. This is Rev. Anne Presuel of DivinelyIntuitiveBusiness.com. Today, we're going to do a tapping audio on up-leveling in your business.

A lot of times, people get very frightened when it comes to stepping into a new level in their business. They dream of it. They want it. They are excited about it. But when it actually comes to doing it in a large way, it gets very scary.

It's okay, a lot of times, to do it in a small way, but to do it in a large way gets very frightening.

So, what we're going to do today is do some tapping on up-leveling in a big way because sometimes your biggest breakthroughs come when you take a big step in your business.

So, let's move some of the fear out of the way so that you can take that big step.

I want you to just start tapping. If you like to do the sore spot, that's fine. If you want to do the karate chop, that's fine. I'm just going to start tapping at the top of the head.

If you need to look to find out what the tapping points are, you can find them at <http://divinelyintuitivebusiness.com/tapping-points>. I'm not going to guide you through the tapping points. It's just not the way I do it.

So, if you know where the points are, just tap along. If you don't, then download the guide and tap on the tapping points as we go through this. I suggest you simply change points with each statement.

I am so afraid of stepping up in my business.

I'm really afraid I'll make a mistake.

I'm afraid I'll make a big mistake.

What if I make a big mistake?

What if I make a big investment and it doesn't pan out?

Divinely Intuitive™ BUSINESS

What if I make a big investment and I lose the money?

Where would I be then?

I'd be worse off than I am now.

At least now, I'm better off because I haven't made that big investment

And I haven't taken the risk ... and failed.

It's better to just stay small.

But is it better if I just stay small?

My heart, my soul, is calling me...

To grow...

To expand...

To become more.

Divinely Intuitive™ BUSINESS

If I stay small, what happens?

That doesn't serve anyone.

It doesn't serve me.

And maybe all I'm thinking about it is from the fear perspective of making a mistake.

Maybe I ought to take a look at it from the perspective of

“What if it works?”

Instead of “What if I fail?”

I mean, I know that energy follows thought.

I know that what I focus upon increases.

So why would I even think of focusing upon failure?

Divinely Intuitive™ BUSINESS

YOUR 6TH SENSE GUIDE TO A 6-FIGURE BUSINESS

Well, I get that that's kind of a natural thing to do, but I don't need to do that.

I don't need to do that.

I can focus upon success.

And moves through the breakthroughs of fear.

The blocks of fear.

The conversations that say, "I can't do it."

The conversations that say, "I'm not good enough."

The conversations that say, "Who do you think you are?"

They're just conversations.

They're not the truth.

But I treat them as though they're the truth.

YOUR 6TH SENSE GUIDE TO A 6-FIGURE BUSINESS

And sometimes when I realize that I'm doing that,

I can stop.

And sometimes I don't even realize I'm doing it.

But in the times that I do realize it and I stop,

I create it for the next time that I'm doing it ...

To recognize that I'm doing it,

And to stop,

Which increases my chances of success significantly.

I am so ready to move my business forward.

Even though I have conversations,

Even though I have fears,

Divinely Intuitive™ BUSINESS

Even though ...

I'm ready to move my business forward.

I want to move my business forward.

I want to increase my income.

I want to increase my reach.

I want to touch more lives,

To connect with more people,

To have more clients,

To have more abundance.

I came to bring my gifts into the world.

That's what I came to do.

YOUR 6TH SENSE GUIDE TO A 6-FIGURE BUSINESS

And my business is the way in which I'm doing that.

So up-leveling is a natural process of bringing my gifts to the world.

And I am so ready to do that.

I am so ready to be that change in the world that I want to see.

And that means screwing up my courage and stepping up.

I'm ready to step up.

I'm willing to step up.

I choose to step up.

I choose to take action that is unheard of for me,

That is unprecedented for me,

Because I know that in taking action like that,

Divinely Intuitive™ BUSINESS

I'm going to have results that are unprecedented for me,

That are unheard of for me.

I will have results.

I choose to have those results.

And if I must take action in order to have those results,

Then that is what I will do.

I'm ready to do that.

I let go of the fear.

I let go of the conversations that say I can't.

I choose to step into it now.

I choose to do it now.

YOUR 6TH SENSE GUIDE TO A 6-FIGURE BUSINESS

I choose to be that now.

And I say, Thank You, God.

Thank You, Spirit.

Thank You to my higher self.

And I allow it to become the truth of my being,

Right here, right now. And so it is.

Okay take a nice deep breath.

Whenever you get afraid of stepping up in your business, you can tap along with this, and allow it to support you, in building your business and move forward.

Divine hugs,

Anne
