Your Divine Money **Class 1 - Handout**

Declare your intention for the amount of money you want to make in the next month. Write it down.

On a Scale of 1- 10, **how possible does that number feel?** (10 is the most true; 1 is the least.) Write down your number.

Now double it. If you started with \$5,000 and you doubled it to \$10,000, you will likely get some responses inside your head and body.

Write down the thoughts you have about this number.

- *It's too much.*
- *That would be too hard.*
- *Who am I kidding?*
- *I don't know how on earth I could do that.*
- *Heck, I don't even have a client yet!*
- *Oh, just forget it.*
- *Who would pay me that?*

- *Where would I get all of those clients?*
- *Anne's nuts!*

Notice where the feelings are that show up in your body. This is where you hold that fear.

- Head hurts
- Neck tight
- Anxiousness
- Tension
- Upset
- Anger

Your Week 1 Assignment

1) Every day this week, please tap on the doubled number you wrote above. Here's an example:

“Even though this number feels so high, it's ok. The Divine is huge and has infinite resources, and I choose to allow those resources into my life and business. I say yes to the opportunities that come my way!”
